COLOR: Platinum White (WH 115)  
Price Code: A

COLOR: Shadow Gray (GY 705)  
Price Code: A

Although the color tinting process for the coating products presented in this palette are manufactured under the strictest quality control procedures, minor shade variations may occur. Colors may also vary depending on lighting conditions, substrate and exposure. Additionally, lighter color shades have a higher reflectivity value and, therefore, may be more energy-efficient than darker color shades.
